SUMMARY

Experienced Frontend Developer with 1 year of experience, specializing in Next.js (SSR/SSG) for performance optimization. Focused on improving page load speed, responsiveness, and layout stability (Core Web Vitals). Proficient in React.js, TypeScript, Tailwind CSS, Zustand, React Query, and collaborating with cross-functional teams to deliver high-quality, optimized web applications.

SKILLS

Technical Skills: HTML, CSS, Tailwind CSS, JavaScript, React.js, Next.js, TypeScript, Git, Github, Zustand / Redux Toolkit, Axios, React Query, Shadcn/UI, Framer Motion, Zod Validation

Interpersonal Skills: Time management, Communication, Teamwork, Problem Solving, Adaptability

EDUCATION

Diploma in Learning Difficulties Oct 2020 - May 2021 | Disability and Rehabilitation, Zagazig University
Focused on diagnosing and supporting children with learning challenges and implementing educational strategies.

Diploma in Education Oct 2015 - May 2016 | Faculty of Education, Tanta University
Gained foundational knowledge in teaching methods, lesson planning, and student engagement.

Licence in French Literature Oct 2011 - May 2014 | Faculty of Arts, Tanta University
Developed French language proficiency, communication, critical analysis, and cross-cultural understanding skills.

PROJECTS

- [Bank-Reach Banking Dashboard](#) May 2026 - Jun 2026
Developed an Arabic-first banking communication dashboard enabling bank staff to manage customers, create WhatsApp message templates, and run targeted campaigns with full lifecycle management (draft → scheduled → running → completed). Implemented real-time campaign progress tracking via WebSocket (Socket.IO) and bulk customer import via Excel. Built with Next.js (App Router), React, Tailwind CSS (RTL), and Axios.
- [Lawyers Management SaaS](#) Jun 2026
Built a multi-tenant SaaS platform for law offices covering full legal case management (cases, sessions, contracts, consultations), GPS-based HR attendance, automated invoicing, double-entry accounting, and role-based permissions — each office runs in a fully isolated environment. Built with PHP, Laravel 11, MySQL, and Laravel Sanctum.
- [Publishing House & Admin Dashboard](#) 20 Mars - 10 Avril 2026
Implemented a secure electronic book download system with protected access to prevent unauthorized sharing, integrated with a global payment infrastructure to ensure data integrity and facilitate international sales.
- [Company Website](#) Oct 2025 - Nov 2025
Collaborated with UI/UX designers and backend developers to build a fully responsive company website using Next.js and Tailwind CSS. Implemented an integrated contact form connected to backend APIs, enhancing client engagement, improving user interaction, and optimizing overall website functionality.
- [Restaurant Reservation System](#) Jul 2025 - Aug 2025
Developed a responsive restaurant booking website featuring table reservations and customer testimonials. Built with React and Tailwind CSS on the frontend and integrated with a Laravel backend, enhancing overall user experience and streamlining the reservation process.
- [Travel & Hotel Booking Website](#) May 2025
A modern hotel booking platform featuring hotel listings, pricing, search, online reservations, and direct customer communication.

WORK EXPERIENCE

Frontend Developer (Team Contributor) Feb 2025 - Present | Collaborative Development (Freelance) | Remote
Developed responsive web applications using Next.js and React, optimizing performance, maintainability, and application reliability while enhancing overall user experience. Collaborated with UI/UX designers and integrated backend APIs, streamlining workflows and improving team efficiency.
